

On 23 September 2009, SVGAIR (1990) Limited completed the recertification process for attaining an Air Operators Certificate under the new Civil Aviation Regulations (CARs). The CARs were promulgated in St Vincent and the Grenadines in 2005.

These regulations came into being as a result of an audit carried out by the Federal Aviation Administration (FAA) on the then Directorate of Civil Aviation (DCA) in 1996. The formation of the ECCAA and promulgation of new regulations were but two corrective actions arising from the FAA audit.

and the other is a representative of the Department of Defense. The photo shows the two men shaking hands and holding a blue folder. The man on the right is wearing glasses and a tie.
